

The caveat to this recommendation is that both service changes must be implemented simultaneously because of the interdependencies between women's and children's services

- Surgical services – recommendation to proceed with the changes outlined in section 2 above on 17 September 2016

The caveat to this proposal is that there must be whole system assurance on bed capacity based on continuous progress towards meeting the agreed criteria six weeks prior to the proposed move.

## **6.0 Recommendation to the Governing body**

The CCG Governing Body is recommended to:

- Note the process (outlined in section 3 above) undertaken to quality assure the changes that are planned to take place in September 2016
- Accept the recommendations made to the Mid- Yorkshire Health and Social Care Programme Executive Group on 17 June 2016 following the Star Chamber process:
- Children's services – recommendation to proceed with changes outlined in section 2 above on 17 September 2016
- Women's services - recommendation to proceed with changes outlined in section 2 above on 17 September 2016
- Surgical services – recommendation to proceed with the changes outlined in section 2 above on 17 September 2016
